

# “We’re Voting Yes!”

"If we are united we are more powerful than as an individual or a small group. We can come together to develop strategies to succeed in negotiating for improvements at work. It takes a village." **Ben Cosabic**, Patient Support Services Lead, Patient Support Services

"I support forming a union because I am ready for the day where support staff is finally treated and respected the way we deserve."  
**Jordan Bushway**, LNA / Unit Secretary, Mother Baby

"I support our union because we should be receiving more for the work we do."  
**Kaitlin Ducharme**, Surgical COA, ENT

"I have been working to form our union because as support staff we are empowered to support our patients and colleagues and we will not quit fighting for better pay and benefits to improve the quality of life for ourselves and our patients." **Harly Rodriguez**, MHT/Unit Secretary, Shep 3/6

"I support our union due to the fact that a union fundamentally puts its workers first. Our union aligns its views and visions with us, the employees and not vice versa. I say it's about time that we band together and start leveling the playing field."  
**Cheng Pan**, OSS, Employee Health

"Being an LNA is what I do—it's my life. I love taking care of patients and their families. I like to make people happy; it sucks that they're in the hospital and are sick. I'm happy where I am, but I'm organizing our union because we deserve to be paid fairly to recognize all that we do."  
**Nermina Muminovic**, LNA, Resource LNA
